

Types of Review/Procedure

Full Review

The PRMC Chair assigns each application to a primary reviewer (medical oncologist), a secondary reviewer, a PharmD (as appropriate), and a statistician. Clinical Research Professional (CRP) review is documented on the Feasibility Form.

The Protocol Review and Monitoring Committee Evaluation Form is completed by the assigned reviewer.

Expedited Review

The PRMC Chair assigns a primary reviewer. The primary completes their review and leads the PRMC discussion about the project.

The Protocol Review and Monitoring Committee Evaluation Form is completed by the assigned reviewer.

Protocol or Concept Review

The PI submits the Protocol or Concept Submission Form to humansubjectsresearch@cc.hawaii.edu at the UH Cancer Center Office of Compliance at least four weeks prior to the PRMC meeting.

The PRMC Chair assigns the application for a full review. Review focuses primarily on feasibility and coordination with ongoing protocols.

The Protocol Review and Monitoring Committee Evaluation Form is completed by the assigned reviewer(s.)
